Owners of corner Lots shall install such a sidewalk parallel to the front Lot line and the side street Lot line. If not otherwise provided, the Owners of corner Lots shall extend sidewalks parallel to the front Lot line and side Lot line into the street to a terminus at the street curb in accord with all Federal, State and County regulations respecting construction and/or specifications, if any. It shall be the responsibility of the Owner to assess the effect of the above requirements with respect to possible removal of or damage to existing trees by construction of said sidewalks and to comply with the preceding Section. The public utility easements provided along front and side Lot lines may be used for construction of the sidewalks, provided that the resulting proposed layout receives the prior approval of the Committee and any utility companies furnishing utility service through the easement. Each Owner shall be responsible for the maintenance and repair of the sidewalk adjacent to his Lot after construction.

Section 16. Mailboxes. Mailboxes shall be installed prior to the completion of the improvements on any Lot and shall conform in type and location to any applicable regulations of the U.S. Postal Service. The design of mailboxes shall further conform to any standards established by the Committee. In the event that an Owner wishes to replace a mailbox, or is required to do so by virtue of damage or otherwise, the Owner shall submit a description or plan of the proposed replacement for the approval of the Committee.

Section 17. Other Building Requirements and Restrictions. The Committee may, in conjunction with its review of Development Plans, apply other building requirements and restrictions, which the Committee, in its sole discretion, deems relevant to its purposes. The Committee may, but is not required to do so, promulgate and make available to Owners an outline of applicable building standards which shall constitute guidelines only and shall not be binding upon the Committee.

All trash, garbage or waste matter shall be kept in adequate containers constructed of metal, plastic or masonry materials, with tightly-fitting lids, which shall be maintained in a clean and sanitary condition and screened from public view. No Lot shall be used for open storage of any materials whatsoever, which storage is visible from the street, except that new building materials used in the construction of improvements erected on any Lot may be placed upon such Lot at the time construction is commenced and may be maintained thereon for a reasonable time, so long as the construction progresses without unreasonable delay, until completion of the improvements, after which these materials shall either be removed from the Lot, or stored in a suitable enclosure on the Lot. No garbage, trash, debris or other waste matter of any kind shall be burned on any Lot.

Section 9. Access. No driveways or roadways may be constructed on any Lot to provide access to any adjoining Lot unless the express written consent of the Committee first shall have been obtained.

Section 10. Utilities. Each residence situated on a Lot shall be connected to utility lines as soon as practicable after same are available at the Lot line.

Section 11. Oil and Mining Operations. No oil drilling or development operations, oil refining, quarrying or mining operations of any kind shall be permitted upon or in any Lot, nor shall oil wells, tanks, tunnels, mineral excavations or shafts be permitted upon or in any Lot. No derrick or other structure designed for use in boring for oil or natural gas shall be erected, maintained or permitted upon any Lot. The preceding prohibition shall not prohibit bona fide archeological investigations with the prior written permission of Declarant or its assigns. Such bona fide archeological investigations shall provide an adequate plan for restoration of the excavated area.

Section 12. Lot Maintenance. The Owners or occupants of all Lots shall at all times keep all weeds and grass thereon cut in a sanitary, healthful and attractive manner and shall in no event use any Lot for storage of materials and equipment except for normal residential requirements or incident to construction of improvements of any kind thereon and shall not burn anything (except by use of an incinerator and then only during such hours as permitted by law). The drying of clothes in full public view is prohibited and the Owners or occupants of any Lots where the rear yard or portion of the Lot is visible to full public view shall construct and maintain a suitable enclosure to screen the following from public view: the drying of clothes, yard equipment, refuse containers, wood piles or storage piles which are incident to the normal residential requirements of a typical family. In the event of default on the part of the Owner or occupancy of any Lot in observing the above requirements, or any of them, such default continuing after ten (10) days' written notice thereof, Declarant or its successors and assigns may, at its option, without liability to the Owner or occupant in trespass or otherwise enter upon said Lot and cause to be cut such weeds and grass and remove or cause to be removed such garbage, trash and rubbish or do any other thing necessary to secure compliance with this Declaration in order to place said Lot in a neat, attractive, healthful and sanitary condition, and may charge the Owner or occupant of such Lot for the cost of such work. The Owner or occupant, as the case may be, agrees by the purchase or occupancy of such Lot to pay such statement immediately upon tender thereof. To secure the payment of such charges, a vendor's lien is herein reserved against the Lots in favor of Declarant, whether specifically mentioned in each deed or not, said lien to be inferior to any purchase money lien.

Section 13. Declarant's Exemption. Nothing contained in this Declaration shall be construed to prevent the erection or maintenance by Declarant of any structures or other improvements necessary or convenient to the development, sale, operation or other disposition of the Properties.

Section 14. Resubdivision. No Lot within the Subdivision shall be further subdivided or separated into smaller parcels by any Owner, and not less than all of such Lot shall be conveyed or transferred by any Owner.

Section 15. Visual Obstructions. No object shall be placed, planted or permitted which obstructs site lines at elevations between two (2) and six (6) feet above the surface of the streets within the triangular area formed by the curb lines of the street involved and a line running from curb line to curb line at points twenty-five (25) feet from the junction of the street curb line.
